## About Me

I am a passionate frontend developer skilled in HTML, CSS, JavaScript, React, and various frontend frameworks. I am always eager to learn and explore new technologies to create innovative and user-friendly solutions for the tech industry.

## Experience

### Frontend Developer (2023-Present)

- Gained hands-on experience in building user-friendly interfaces using HTML, CSS, and JavaScript.
- Developed dynamic and responsive web applications using React and frontend frameworks.
- Proficient in creating reusable components, optimizing performance, and managing application state using tools like Redux and Context API.

### Full-Stack Development Journey (2024-Present)

- Transitioned into full-stack web application development, focusing on integrating frontend and backend technologies.
- Acquired knowledge in backend technologies like Node.js, Express.js, NestJs and database management using PostgreSQL and MongoDB.
- Worked with tools like Prisma ORM for seamless database interaction and implemented efficient server-side logic.

### Key Highlights

- Passionate about exploring and learning new technologies to stay updated with the latest industry trends.
- Dedicated to contributing innovative solutions to the tech industry while continuously enhancing development skills.

### Other Experiences

- Received FullStack Web Development Training
- Received training in React
- Participated in WordCamp Nepal 2022, the premier Wordpress event
